

Seton Medical Center and Seton Coastside **BARGAINING UPDATE**

AUGUST 9, 2016

STOP THE DELAYS

Our NUHW bargaining committee met with Blue Mountain–Seton/Seton Coastside Medical Center management on Monday, August 8

Despite the fact that this was our fourth bargaining session, management was prepared to discuss only six contract sections (out of a total of thirty-seven).

This was especially insulting in light of the fact that our bargaining committee has given management all of the union's proposals.

While we were prepared to bargain all day, negotiations ended after just 90 minutes.

Clearly, management was not prepared – again.

We made it clear that we expect management to present a full proposal when we meet again August 18.

The time for delays and stalling is over.

Please stay tuned for details on upcoming actions to support our campaign for a fair contract.

In Unity,

NUHW Bargaining Committee
