

# Seton Medical Center and Seton Coastside **BARGAINING UPDATE**

**AUGUST 22, 2016**

## **STILL WAITING FOR A FULL PROPOSAL FROM BLUEMOUNTAIN/SETON MANAGEMENT**

On Thursday, August 18, our NUHW Bargaining Committee met with BlueMountain/Seton for the fifth time.

While we reached tentative agreements on a number of contract provisions (including Equal Employment Opportunities, Floating, Leaves of Absence, and Career Opportunities), we continue to be frustrated that BlueMountain/Seton management has again failed to give us a full contract proposal—despite the fact the we have given them our complete proposal for a new contract.

### **What you can do to help**

You can help our NUHW Bargaining Committee send a message to management by:

- Signing the petition demanding an end to management's stalling and a fair contract for NUHW caregivers
- Joining us for our next bargaining session on Thursday, August 25 as your schedule allows (we will begin at 10 a.m. in the CDR Conference Room on the second floor)

**Winning a fair contract depends on member involvement.  
We can't win without you!**
