

Fountain Valley Regional Hospital **BARGAINING UPDATE**

OCTOBER 5, 2016

Our NUHW Bargaining Committee met with Tenet-Fountain Valley management on Tuesday, October 4.

We presented management with a number of proposals, many of which Tenet has already agreed to in their other California hospitals.

The proposals covered many issues, including a **Grievance and Arbitration Procedure** that would not only help Tenet employees through tough situations, but streamline the current system.

We also proposed creating a **Patient Care Committee**. This would allow Tenet employees to discuss issues that face their department's staffing shortages and improve patient care.

STOP THE DELAYS! FAIR CONTRACT NOW!

"We have been in negotiations since August, yet we have only met with management on four occasions. Management must stop the delays and give us more bargaining dates."

Hannah Le
Pharmacy Tech
