

2016 General Election ENDORSEMENTS

NATIONAL UNION OF HEALTHCARE WORKERS

Politics is important to all of us, but to healthcare workers in particular, since government funds and regulates healthcare. Many of the issues that affect us are decided by elected leaders. And those elected office holders can help us in our workplaces. These endorsements were voted on by NUHW stewards and leaders in each district after interviewing candidates and reviewing their platforms. PRESIDENT — Hillary Clinton

Our influence with Senator Bernie Sanders helped put mental health care at the top of his agenda. Sanders and our endorsement of Clinton in the general election were major factors in Clinton's decision to release a comprehensive mental health care plan in August. A Hillary Clinton administration is the best vehicle for advancing the progressive values and goals that were expressed by Sanders and embraced by a majority of NUHW members over the past year.

**U.S. SENATE — Kamala Harris**

A longtime friend of NUHW, Kamala Harris has a strong track record of fighting for vulnerable communities. As California Attorney General, she fought big banks and secured from them more than \$20 billion for struggling homeowners, and she continues to fight for working families trying to keep up with the rising cost of living. As San Francisco's District Attorney, she stood with us in the battle with SEIU.
