UNDERSTANDING PAID TIME OFF (PTO)

PTO covers vacation time, sick days, and holidays, so you can use it to take vacations, recover from illness, or celebrate holidays. The employer will pay out your PTO accrual when your employment ends.

Accrual Rate:
Eligible employees earn PTO hours each pay period, based on length of service and scheduled hours. CFMG is honoring our seniority for PTO accrual.

PTO Carryover:
You can carry over a maximum of 360 hours from one calendar year to the next. At 360 hours you stop accruing PTO unless you use some or donate some.

Donation of PTO:
You can donate up to 40 hours of accumulated PTO to coworkers who have exhausted their PTO balance due to catastrophic illness.

Extended Sick Leave:
PTO is used for short-term illness. ESL is for long-term illness – if you miss five or more days of work in a row or get admitted to the hospital. You accrue 2-7 days per year of ESL depending on years of service, up to a maximum of 500 hours.

PTO Accrual Schedule for Full-Time EEs

CFMG doesn’t ‘always do the right thing’

During the first two months of its contract, CFMG terminated at least six people from probation. Our union believes that at least two of those individuals were terminated without a proper investigation and for actions the workers took in protection of their licenses.

While we cannot file a grievance over workers who are released from probation, we continue to try to explain to the boss why we believe they didn’t do the right thing. If the boss won’t listen, we may have to go outside CFMG.
CFMG FAILS TO SCHEDULE PROPERLY

Before CFMG won the contract with Alameda County, they made a lot of claims to our bargaining committee around scheduling.

Claim: CFMG promised to fill every shift from the first day they took over.

Reality: The January schedule had 32 open shifts for RNs and LVNs. After three months, CFMG can’t even fill the schedule.

Claim: CFMG agreed to language in our contract that every full-time worker would be scheduled for 40 hours per week.

Reality: Starting on the very first day CFMG took over, they unilaterally implemented a four-on / two-off schedule that does not allow workers to work full-time hours. This means we make less in wages and accrue less PTO.

Claim: CFMG never said in bargaining they were considering a 4/2 schedule.

Reality: Our bargaining team spent many hours talking about scheduling and we left bargaining believing that scheduling would be done about the same way it was done under the previous employer.

Next Steps: Our stewards have spent hours in meetings with the Health Services Administrator (HSA) and Director of Operations explaining that a 4/2 schedule is not what we bargained for, that it does not allow for workers to see their families on the weekends, and that it simply isn’t fair.

CFMG told our union they would fix the schedule, but then put out a January schedule with the same problems! We now have no choice but to move forward with a grievance forcing them to fix the schedule and provide us any back pay we are owed.

MEMBERS ELECT NEW STEWARDS

Glenn Dyer workers have elected three stewards: former steward Blaire Behrens and new stewards Esther Ruiz and Mary Anne Fahey.

“I ran for steward because I believe it’s important for our contract and our work to be respected,” says Mary Anne Fahey, RN. “The more respect we have the better job we can do for our patients.”

Our contract allows for a total of nine stewards between the two facilities. We currently have four at Glenn Dyer (Kim, Blaire, Mary Anne, and Esther) and two at Santa Rita (Zeny and Maria). Santa Rita members interested in becoming a steward talk to one of our current stewards about how to involved.
