

MORE BOSS LIES

We took Rockport VP Wesley Rogers at his word.

After we rejected their last, best and final offer, he promised to keep company contributions to our vision and dental insurance, to continue allowing our stewards to come to the facility on their own time to help us, and that he would make a new proposal and send it to our union.

It's been over a week. What has he done?

NOTHING.

And instead of restoring company contributions to our dental and vision plans, he told us that the company never contributed in the first place.

WHAT?

DENTAL COVERAGE

Insured	Employee cost	Percentage company pays for employee	Percentage company pays for child
Employee + children	\$93.63	85%	50%

Shouldn't a healthcare executive be able to understand a simple table?

Shouldn't Wesley tell us the truth?

We care for the sick and frail, and Wesley wants to take away our vision and dental benefits.

We can't let this happen.

THE TIME TO ACT IS NOW.
