

HELP US HELP OUR PATIENTS

Cottonwood Health Care management understaffs the nursing home, undermining caregivers' ability to provide our patients with the attention and care they need and deserve.

Management staffs the facility with just 3 nursing assistants for 87 patients.

Patients often have to wait more than an hour to get the care they need.

Patients are forced to go without basic supplies like clean linens and wash cloths.

HOW YOU CAN HELP

Call Cottonwood administrator **Mike Smith** at (530) 662-9193 and ask him to stop shortchanging patients and workers.
