

# WE SHOWED KINDRED THAT WE'RE STRONG AN UNITED

Monday June 11th, dozens of us joined our first 1-day informational picket to protest hospital management's failure to offer a fair wage proposal that would begin to address our high turn over rate and lack of adequate staffing.

Management's current wage proposal is a one half percent increase every six months. But if you are "capped out," no wage increase at all. And on top of that, if you happened to have received your "merit" increase this year, that amount would be "deducted" from your half percent increase. Literally, management's proposal is pennies.

Thanks to everyone who came out to the picket line. It was spirited and every department was represented!

We were covered by FOX5 news and San Diego City Council member candidate Tommy Hough came to lend his support.

To win a fair contract everyone will need to participate.

Join us at our next bargaining session!
