

AN OPEN LETTER TO OUR CO-WORKERS

We, the Organizing Committee at Radnet Orange County, have filed for our election of the RNs and Technical Workers to join the National Union of Healthcare Workers (NUHW). This comes after a supermajority of us have signed a petition to authorize NUHW as our union.

We are organizing a union so that we can receive fair and regular wage increases, have a voice in decisions that affect our patients, professions and our future, and to be treated with respect. We are united and determined to achieve a better Radnet for all of us!

In Solidarity,
