

THANK YOU FOR STICKING WITH YOUR COWORKERS

But we must stay vigilant to ensure a clean hospital

More than 1,400 workers signed our petition demanding better EVS staffing for a clean hospital.

AND CHILDREN'S MANAGEMENT HEARD YOU LOUD AND CLEAR!

With your support, we stopped management from stripping benefits away from 21 of your coworkers in the upcoming EVS Rebid! This is an unprecedented victory!

We also secured a review process, so we can document and address any changes that result in a dirtier hospital.

However, the Rebid will still leave fewer EVS workers covering larger assignments. That's why it's super important to report if an area isn't clean and could cause a patient care issue. If we document cleanliness issues, we can use the review process to solve them. (See backside of leaflet for more details).

So let's continue to stand together to make our hospital the best place it can be for patients and their families.

NUHW NATIONAL UNION OF HEALTHCARE WORKERS

HELP US MAKE OUR HOSPITAL CLEAN

Our agreement with management over the EVS rebid saved benefits for EVS workers, but it still leaves them cleaning a larger portion of the hospital than previously. We're concerned that will result in a dirtier hospital, so we're asking everyone to document any instances in which you see an area of the hospital that is not clean.

We will use this in future meetings with management to determine if the rebid is resulting in a dirtier hospital and must be altered for the safety of our patients.

Please use this sheet to document any cleanliness issues you find. Thank you!
