

JOIN US ON THE PICKET LINE!

Marin General Hospital

Wednesday, December 19, 2018

Shifts: 6-10am • 11am-1pm • 2-6pm

NUHW members at Marin General Hospital, friends in other unions at MGH, and other allies, will be picketing and rallying outside the hospital to show we are committed to winning a contract that ensures the hospital can recruit and retain the highest quality employees to deliver the highest quality care to patients.

An informational picket is **NOT** a strike or work stoppage — we join it before and after work and during our lunch breaks. An informational picket shows management we are willing to fight for the contract we, and our patients, deserve.

In the various radiology modalities, the best applicants for our open tech positions often go to other hospitals, where the pay is far superior. And that's bad for our patients. We're here because we love serving this community and our patients, and we've been willing to make a little less in order to do so. What we get in return is excellent healthcare coverage. **Now management wants to take it away from us, making it even harder to attract quality staff.**

Management stubbornly holds to its proposal to charge us hundreds of dollars per month to maintain our health insurance. In return, they're offering tiny raises that don't even keep up with the cost of living.

And they have made it clear they plan to push this onto our colleagues in other unions, and those who have no union, as well. **So we're all in this together.**

NUHW General Membership Meeting

Monday, December 17 @ 4-5pm

MGH Conference Center

Join us for a general membership meeting of NUHW members at Marin General Hospital for updates on contract negotiations and final plans for the informational picket on 12/19/18.
