

STOP WAGE THEFT AT USC!

JOIN US ON THE PICKET LINE MAY 15

USC is violating our union contract, stealing paid holidays from workers at USC's Norris Comprehensive Cancer Center.

In a sudden reversal, USC Norris is refusing to recognize the nine paid annual holidays that our 140 members have received for years.

In November 2018, USC agreed to not change our holiday pay, and even paid us correctly through January 2019. Then, in February, they took away our paid holidays, with no notice. USC needs to keep its commitments to us, its hospital employees!

This new policy would amount to stealing more than \$300K per year from Norris Cancer center workers.

We have filed a complaint with the National Labor Relations Board (NLRB), and to protect our families, we will be picketing on Wednesday, May 15.

INFORMATIONAL PICKET
