

WE BEAT AS ONE! ❤️ WE FIGHT FOR ALL!

An overwhelming majority of NUHW members at Providence St. Joseph Health System Hospitals including Tarzana Medical Center, Queen of the Valley Medical Center, Santa Rosa Memorial Hospital, Petaluma Valley Hospital, St. Joseph Eureka Hospital and Redwood Memorial Hospital, have publicly declared our commitment to improving the lives of our patients, our families and the communities that we serve.

We are standing together to achieve standards that ensure our hospitals are the best places to give and receive care. We are committed to upholding the mission and values of our ministries, and to hold each other and management accountable to the true meaning of our values — not just in words but in action. We believe that all caregivers deserve the right to have a voice in their profession and the care they provide. And, we will fight to ensure those rights are recognized and respected.

We can best achieve our collective vision of Health for a Better World by working together. We urge the Providence St. Joseph Health System to work with us and not against us in achieving these goals.
