

SETON MEDICAL CENTER/SETON COASTSIDE

WE DID IT!

Dozens of Seton members attended hearings Thursday and Friday and delivered a strong message to Attorney General Xavier Becerra: Seton Medical Center and Seton Coastside provide vital services our communities cannot afford to lose.

Many of us testified about the importance of the care we provide and the struggles our patients would face if our hospitals no longer provided acute care services.

We expect Attorney General Becerra to lay out conditions for KPC's purchase of Seton within the next month. Meanwhile, we will continue to bargain with KPC and defend our retirement and health benefits.
