

SETON MEDICAL CENTER/SETON COASTSIDE

VERITY-KPC TRANSITION UPDATE

OCTOBER 4, 2019

What is the state of the proposed sale of Seton and Seton Coastsides?

On September 25, 2019, the state's Attorney General's Office approved the sale of our hospital to KPC if it agrees to follow certain conditions put in place to help protect the healthcare needs of our communities. KPC is reviewing the AG's conditions, but the deal has yet to close.

What does this mean for NUHW members?

NUHW's current contract is in effect until October 31, 2019. We recently ratified a successor contract with KPC that would expire on October 31, 2020. If the sale does not close by October 31, 2019, our NUHW contract with Verity will be extended in thirty-day intervals to ensure the guaranteed rights, current benefits and working conditions remain in effect.

Hiring Portal – KPC application process

On Tuesday, October 1, employees at Seton Medical Center and Seton Coastsides received communication from Richard Adcock, CEO of Verity, that the KPC hiring process will begin the week of October 7. While Adcock did not share an exact date, he said that KPC will send representatives to give employees details on the hiring process prior to the opening of the hiring portal.

If you notice anything that would be important to report, or have any questions, please contact NUHW organizer John Avalos at javalos@nuhw.org or (415) 359-8367.
