

EVS NEGOTIATIONS UPDATE

On October 15, our elected EVS NUHW Bargaining Team met with PTMC management and Human Resources. Our bargaining team proposed:

- Wage scales and raises for EVS technicians, EVS floor technicians, and lead EVS technicians from start to year 15, just like other NUHW PTMC members.
- A Patient Care Committee meeting in November between management and EVS leaders to discuss improvements in staffing and supplies.
- Changing start times for first shift to from 6 A.M. to 2:30 P.M., and for second shift from 2 to 10:30 P.M.

Management's response was disappointing:

- They proposed a wage scale that's lower than what many of us currently make, and no increase in 2019.
- Management said more than once that they did not want to address staffing and supplies during negotiations.
- No change to the shift start times.

"Even though management tells us that staffing and supplies are a priority, we are still overworked and missing necessary supplies like paper towels and hand sanitizer. They wouldn't even agree to set a time to discuss solutions. We need to unite and fight until we get what's right!"

Cheryl Montgomery
