

NATIONAL UNION OF HEALTHCARE WORKERS

866-968-NUHW • nuhw.org • info@nuhw.org

3/2/21

To the Leadership and Negotiating Committee of Keck Medicine of USC,

We, the undersigned NUHW members at Keck Medical Center of USC, Norris Cancer Center of USC, the Ambulatory Clinics, and Alhambra Call Center are united in support of our bargaining platform for a safe workplace, economic justice, and fair staffing and scheduling.

During the worst pandemic in generations we continue to work tirelessly to care for our community. In our upcoming negotiations, we expect support from Keck administration to be able to continue doing the essential work of caring for patients, rather than be subjected to takeaways such as punitive attendance policy changes and losing paid holidays. The last thing we need during this crisis is to be distracted by a protracted fight for standards that ensure our safety and enable us to continue providing the quality of care that our community desperately needs.

We are ready to bargain in good faith and work together with Keck Administration, and we are also ready to fight for what we all deserve.

By signing this petition, we authorize our bargaining teams to schedule an informational picket should Keck Administration continue to postpone bargaining for ambulatory, threaten to subcontract our work at the Call Center, and/or refuse to bargain a contract that reflects what should be all of our priorities: the safety and security of caregivers and our patients, and not the University's bottom line.

Signed,

NUHW members at Keck Medicine of USC

Aaron Kim, Intraoperative Monitoring
