

# LET YOUR VOICE BE HEARD!

Bargaining is an effort that involves all of us. We all need to get involved and participate to win a collective agreement that we deserve!

Now that we have decided to join NUHW, our first task is to determine what we're fighting for as a unit. That begins by filling out a survey as quickly as possible and answer it thoroughly. (EACH QUESTION/ANSWER COUNTS!).

To fill out the survey, point your camera phone to the QR code or visit:  
[nuhw.org/sutter-hospice-alameda-survey](https://nuhw.org/sutter-hospice-alameda-survey)

This is our chance to raise our voice for what we want in the new contract. The results of our surveys will inform the priorities we want to pursue when we come to the table with management. Representing us at the table will be our newly elected Bargaining Committee.

**This is our opportunity to make improvements for our patients, our career and our families!**
