

WE'RE TAKING ACTION!

A supermajority of the Professionals bargaining unit voted, and 99.9% voted YES for an informational picket

We've been negotiating in good faith for nine months now, but it's become clear that management won't offer us a fair deal without a fight. With a nearly unanimous vote of approval from members, our bargaining team has scheduled an informational picket to take place in front of the hospital on Friday, February 25.

NUHW members in the S&T and BOC units are also encouraged to attend!

Remember, an info picket is NOT a work strike. It is a public demonstration/picket line that we will hold in front of the hospital to shine a public light on our issues. We will join our coworkers on the picket line during our lunch and break periods to demonstrate to UCSF leadership that we care about the future of CHO, and to show the community and our patients that we have no intention of letting the vision of Children's Hospital Oakland be forgotten in the name of profit.

INFO PICKET

Friday, February 25

12PM-1PM

In front of the main hospital
