

COME TO BARGAINING!

MAKE YOUR VOICE HEARD: ATTEND BARGAINING

At bargaining we will present our wage proposal, which is designed to begin to alleviate the staffing crisis. We are the lowest paid among comparable local hospitals. We must improve standards at FVRMC to attract and retain staff. To win what we deserve, everyone needs to participate!

"RNs have been overworked and understaffed making it difficult to care for our patients. Giving bonuses for RNs to work extra shifts and hiring high paid Travelers doesn't solve the staffing crisis. The budget should be spent to retain our RNs by increasing wages and hiring additional CNAs."
