HOSPITALS KNEW HOW TO MAKE MONEY THEN CORONAVIRUS HAPPENED.

Surgeries are canceled. Business models are shifting. Some of the hardest-hit hospitals may close, leaving patients with fewer options for care.

THOUSANDS OF HEALTHCARE WORKERS ARE LAID OFF OR FURLOUGHED AS CORONAVIRUS SPREADS

UNAC ISN'T WORTH THE RISK

Joining UNAC would mean returning to bargaining during an economic recession with no support and no realistic plan to win.

We would emerge from a decertification vote bitterly divided and in a weaker position to resist any takeaways. UNAC members couldn't support us because they will still be under a contract that prohibits them from criticizing Kaiser.

And, UNAC would have no way to enforce the terms of our new contract, which would become null and void.

Now is not the time to risk giving up what we've already won in our contract. Let's build on our achievements and continue the important work of defending our rights and compelling Kaiser to follow the rules set forth in our contract.

"In 2015, I was among the 1,200 RNs at Kaiser's Los Angeles Medical Center who voted to join the California Nurses Association rather than UNAC. It was an easy decision, and one that none of us regrets. UNAC nurses make less than we make as CNA members. UNAC's cozy relationship with Kaiser hasn't gotten them better pay or improved RN standards. We hope that just like us, you will reject UNAC and vote to stay in a union that advocates for patients and is willing to stand up for what's right. Vote NUHW."

— Irma Dufelmeier, RN, Kaiser Los Angeles Medical Center
