RAISES TAKE EFFECT MAY 11— NOW WE NEED STEWARDS!

Congratulations to everyone in the EVS department for voting unanimously to ratify our wage increases. The majority of EVS members will get over 7% raises in the next 18 months! Raises will take effect May 11 and will be reflected on the May 29 paycheck.

Next, we need to elect Stewards.

Stewards are the worksite leaders of the Union.

A steward has no greater rights than any of the members in his or her area. However, the responsibilities of a steward do outweigh those of other members. Being a steward requires that personal opinions and preferences are subordinate to that which represents the highest good to the members.

During this period of the COVID-19 pandemic, stewards have been meeting regularly to ensure that the concerns of the memberships are being voiced and addressed.

People who are interested in becoming a steward will have to get a majority (51%) of their shift signed up on the petition in order to be elected.

Reach out to NUHW Representative Carolyn Gómez at cgomez@nuhw.org or (626) 261-3569 for the steward petition.
