

JOIN US AT BARGAINING!

At our first-ever bargaining session on September 20, we showed up in numbers, with three-quarters of our bargaining unit attending. The employer was so intimidated by how many of us showed up, they are now refusing to meet with us at the Rogers facility— they think that this will mean that fewer of us will attend negotiations.

Let’s prove them wrong and show that our commitment is strong, no matter what and no matter where!
