

We voted 100% YES to authorize an informational picket!

We have been bargaining since April, fighting for fair wage increases, adequate staffing, and safe working conditions. But management has refused to take our proposals seriously, rejecting them altogether.

This vote gives our Bargaining Team the authority to schedule an informational picket if management does not show real movement at the bargaining table. An informational picket is NOT a strike or work stoppage. It's a picket line outside the jail that we join before work, after work, and on our breaks to raise public awareness of the issues we face at work.

We shouldn't have to do it to win a fair contract, but with this vote we have demonstrated we are strong and united.

Upcoming bargaining dates will be shared as soon as they become available. Everyone is encouraged to attend bargaining – let's show Wellpath we're united to win!

“Our colleagues are getting gassed by inmates on a regular basis, and being sent home with an attendance point. We need to win safety protections!”
