

# UNJUST LAYOFFS!

**AHMC Leadership: This is NOT the time to abandon healthcare workers!**

**AHMC:  
STOP  
cheating  
Seton patients!**

Management recently informed us they intend to lay off 25 NUHW members in several departments at both facilities:

- They want to wipe out **six jobs in our transport department**, leaving patients waiting in the halls without access to bathrooms, food, or call buttons to even ask for help, for sometimes waiting for hours to get back to their rooms after a procedure.
- **Three important workers in our staffing department** are slated to be laid off. Will this help us with our short staffing? We don't think so!
- Management also intends to **clear out NUHW members in the dietary department**, cutting six jobs in the already short-staffed kitchen.
- Finally, **nine NUHW members in environmental services** are on the chopping block. COVID is surging and management wants to cut the workers who keep the hospitals clean and safe!

**We will keep standing up and speaking out because the patients we care for depend on us. The work we do matters!**

Talk to your steward and for more info on how to join the fight!
