

# WE'RE FORMING OUR UNION WITH NUHW!

We are the dedicated RNs, LVNs, Mental Health Professionals, and Clerks who provide direct patient care at Stanislaus County correctional facilities. We are forming a union with NUHW to negotiate a contract that will:

- Secure annual raises that keep up with the cost of living
- Protect and improve our health benefits plan and working conditions
- Increase PTO accrual and win paid holidays
- Provide safe staffing for ourselves and our patients
- Increase transparency and guarantee we have a voice with management
- Incentivize recruitment and retention of experienced staff

We want to work together with Wellpath management to improve the quality of patient care we provide. We love our jobs and deserve to have a say in our working conditions. Join us in our effort to improve wages, staffing, and working conditions at Stanislaus County Jail!

Talk to one of us – we're more than happy to answer your questions.
