

SUTTER CENTER AT HOME, SAN FRANCISCO

NUHW CONTRACT BARGAINING UPDATE

August 31, 2022

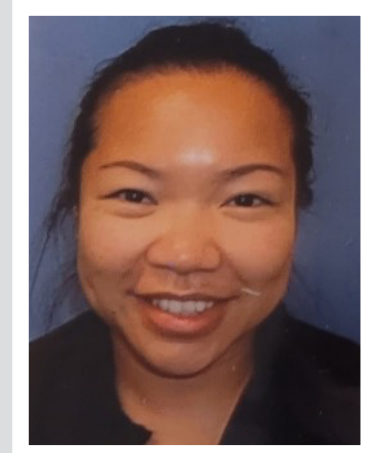

We had our first contract negotiation session on Wednesday evening this week.

More than 20 NUHW members attended and met with the four members of Sutter management's negotiation team. We also had many of our colleagues from the San Mateo and Concord/Alameda branches join us in solidarity.

We made 21 proposals on articles for our future contract. The proposals are in large part identical to the other articles we have proposed for the other Sutter Care at Homes.

While this first meeting was positive, there's still a lot of action to come in our fight for a fair contract. We all saw how hard Sutter tried to stop us from forming our union in the first place. We must all stand united and stay tuned as these negotiations unfold.

We will keep everybody posted on upcoming bargaining dates so that you may join if you are available!

"Our team showed up and supported each other during our first bargaining session. With continual support, we can achieve many things and make SCAH the workplace where we all can stay and grow in. We still have a long way to go, but we have each other."
