

Verdugo Hills Hospital Technical Unit

VICTORY!

We won our union election with NUHW 90 to 48

We have collectively spoken that we have had enough of how things have been going. We want fair wages, a voice on the Job, safe staffing, representation, and respect.

We are ready to begin the process of filling out bargaining surveys and nominations for our bargaining team. This will begin soon.

We are proud of what we have accomplished, but this is just the beginning for a brighter future for all of us. We are all in this together now.
