

IT'S TIME FOR AN INFORMATIONAL PICKET!

We're standing together to win a fair contract that is on par with what other healthcare workers already have. This includes wage rates that value our work, job security, and the stability of knowing we can continue to provide for our families so that we can continue taking care of our community.

After our April 9 bargaining session, the employer's position is unacceptable and still nowhere near where it should be.

This is NOT a strike or a work stoppage. It's a picket line that we join before work, after work, and on our breaks, or if we're off work that day. We need to show up and show that we are united and determined to fight for our jobs!

PICKET LINE

TUESDAY, APRIL 22
