

# NUHW MEMBERS APPROVE INFORMATIONAL PICKET!

The results are in ... 97 percent of NUHW members at WAMC turned out to vote last week, and 99 percent voted YES to approve an informational picket.

We are sending a strong message to management that we are united and standing up to address the issues that affect patient care at WAMC. We are demanding adequate staffing levels in all departments and competitive wages with the industry.

**Our Bargaining Team will discuss the date and plan for the informational picket. Stay tuned!**

**Kudos to all bargaining team members for doing such a great job!**
