BARGAINING
SESSION
Weds. Sept 15
3PM

Wellpath proposes tiny raises for some of us ... and nothing for the rest of us

During our September 1 bargaining session, Wellpath presented us with another substandard economic proposal:

- A ZERO percent increase for nearly HALF of us. For example, in Stanislaus, 80 percent of LVNs would NOT receive a raise
- No guaranteed year-over-year annual wage increases

Wellpath flat out REJECTED the following proposals without a counter:

- Weekend differential: REJECTED
- Education leave: REJECTED
- Extended paid sick leave: REJECTED
- Overtime bonus: REJECTED
- Bilingual pay differential: REJECTED

We deserve fair wages, stability, and predictability – not another round of negotiations next year!

"I can't believe that Wellpath didn't even bother to respond to many of our proposals. We are tired of being ignored. It's time to get this contract settled, and I am ready to take action to get it done!" – Mary Tamaya, CNA, Sonoma

I'm upset that Wellpath isn't taking us seriously. It's time to show them we are done with their insulting wage proposals. This has gone on too long and I am ready to move our fight forward. We won't stop until we win a fair deal! – Katie McGlothern, RN, Sonoma

Join us at our next bargaining session:

WEDNESDAY, SEPTEMBER 15 - 3:00PM - VIA ZOOM

We must stick together and show WellPath we are serious about winning a fair contract!
