

SETON MEDICAL CENTER AND SETON COASTSIDE

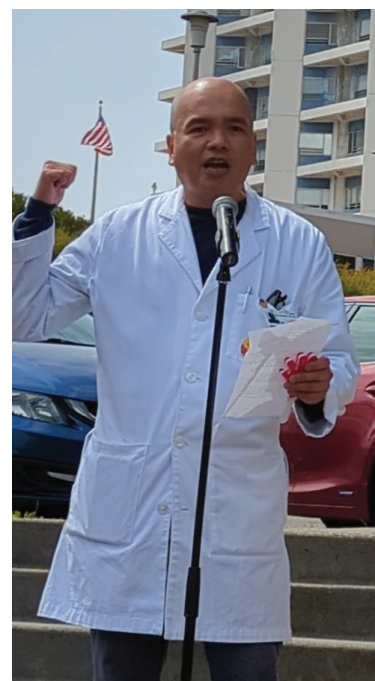

Professionals vote 100% YES to authorize a 3-day strike

In December of 2021, NUHW Professionals at Seton began bargaining for a new unit contract. We finished making our proposals in January of this year and have been working toward settling a fair contract. Since then, we have lost 50 percent of our bargaining unit. We have respectfully and consistently reached out to CEO Sarkis Vartanian to try to find viable resolutions without striking. Yet, we are being ignored and disrespected at the bargaining table. Management hasn't even bothered to offer us a 3 percent increase wage increase nor a wage scale, which is the least they can do considering everything our members have done to keep our hospital running.

This is why we, the NUHW Professional's unit — which includes Occupational Therapists, Physical Therapists, Speech Therapists, Dietitians, Social Workers and Care Managers — have voted unanimously to authorize a 3-day strike.

After canceling our bargaining sessions, coming to the table without any proposals, and ignoring us for months, AHMC has given us no other choice.

NEXT BARGAINING SESSION: THURSDAY, JULY 7 AT 6PM

For more information, contact NUHW organizer and representative Lealani Manuta at (415) 590-0135 or لمانوتا@nuhw.org.
