

Vote YES to authorize a strike

OUR RAISES DEPEND ON IT!

We know how much worse things are under AHMC. We're **understaffed, overburdened** and constantly **short on supplies** and functioning equipment.

Patients aren't getting the care they deserve. But instead of improving care, AHMC wants to make a portion of our wage increases dependent on patient surveys.

Under AHMC's proposal, in addition to a 3 percent annual raise, we'd be eligible for an additional 1 percent bonus **IF SETON GETS HIGHER SCORES FROM PATIENTS.**

How dare AHMC make it harder for us to care for patients, and then try to tie our bonus to patient satisfaction scores!

We've earned every cent of what we're seeking in our contract — no strings attached!
